

Who is the Most Active Operator / Contractor in the State?

Have you ever wondered who is the most active operator or drilling contractor in the State? The **Independent Oil & Gas Service, Inc (IOGsi)** recently introduced a new query application on its website that will allow you to generate a report of active operators or contractor rigs over a specific period of time. Information is compiled from the **Red Top News** weekly drilling activity reports. Online users can find the new **Operator/Contractor Activity Summary Report** under “*Online Reports*”. Simply specify whether you want to look at operators or contractor rig and then enter a time frame ...last month, last 3 months, last year. Data is displayed in a spreadsheet format as shown in the examples below (covering a period from January 1 to present). Data can also be re-sorted by column to view reports from different perspectives, i.e. - by total number of wells spud, or by total footage drilled, or by East and West Ranges, etc. Re-order list by “Name” to view alphabetically.

Operator Summary Example

Name	Total_Ftg Drilled	No. Wells Drilled	Ftg Drilled West Rgs	Ftg Drilled East Rgs	WC Wells Drilled	Dev Wells Drilled	OWWO Wshdwn	Hugoton Area	CBM Wells	Horz Wells
SANDRIDGE EXPLORATION & PRODUCTION LLC	566075	106	566075	0	2	104	1	0	0	84
