

12 New Fields Recognized in Kansas

The Kansas Geological Society's Nomenclature Committee, in association with the Kansas Corporation Commission (KCC) and the Kansas Geological Survey, recognized and named 12 new oil and gas fields in Kansas at a meeting held on July 17, 2013 in Wichita, Kansas. This brings the total number of *new fields* recognized this year to 98, or 43 more new fields compared to the same period a year ago - a gain of nearly 78.2 percent.

In addition, there were 6 new "*infield wildcat*" discoveries recognized in established fields to bring the total number of new discoveries of *all types* this year in Kansas to 129. This is 56 more discoveries compared to a year ago for a gain of nearly 76.7 percent. The Committee also extended the boundaries of many existing oil and gas fields, as well as, noted new formation pay zone discoveries in 7 established fields. One previously abandoned field was also recognized and revived.
