

14 New Fields Recognized in Kansas

The Kansas Geological Society's Nomenclature Committee, in association with the Kansas Corporation Commission (KCC) and the Kansas Geological Survey, recognized and named 14 new oil and gas fields in Kansas at a meeting held on November 13, 2013 in Wichita, Kansas. This brings the total number of *new fields* recognized this year to 145, or four more new fields compared to the same period a year ago - a gain of nearly 2.8 percent.

In addition, there were two new "*infield wildcat*" discoveries recognized in established fields to bring the total number of new discoveries of *all types* this year in Kansas to 183. This is 17 more discoveries compared to a year ago for a gain of nearly 10.2 percent. The Committee also extended the boundaries of several existing oil and gas fields, as well as, noted new formation pay zone discoveries in nine established fields. No abandoned fields were revived
