D & T Tubing Testing Newly Formed

**Dexter Koehn** has established **D & T Tubing Testing LLC** to provide reliable hydro pressure testing of tubing at wellsite to test the strength and integrity of the internal wall of the pipe, or to check couplings for possible “collar leaks.” The company was formed on November 1, 2011 and provides services throughout central and western Kansas, northern Oklahoma and eastern Colorado. Rack testing is also available.

Koehn has over 15 years in the oil and gas business. Office is located at 114 Nunn Drive in Holcomb, Kansas 67851. To schedule service, contact Dexter on cell at 620-353-3385, fax 620-277-2144, or Email: dttubingtesting@yahoo.com.
