

## New 2011-12 Red Book Now Available

### *17th Edition of Independent Oil & Gas Directory of Kansas*

The new 17th Edition of the **Independent Oil & Gas Directory of Kansas**, more commonly referred to as "**The Red Book**", is now available. The petroleum directory features a comprehensive listing of over 4,600 individuals and oil and gas-related businesses, plus key personnel, who are currently active in the industry in Kansas.

The 672-page directory includes an General Listing by name with address, phone and fax numbers, E-mail and Web site addresses and a brief description of type of services offered by each company. Company listings include branch and field offices. The list features 2,629 licensed operators and drillers in Kansas, over 850 service and supply companies and a convenient, yellow page *Service Section* with 719 different categories to choose from when looking for a particular type of service or support in your daily operations. A second *Key-Personnel Section* cross-indexes key individuals to company affiliation and telephone number. The "Red Book" is a convenient size, 6" W X 7" L X 1.5", to easily be carried in the glove box in your vehicle.

To order your copy (ies) of the new 2011-12 Independent Oil & Gas Directory of Kansas, send check to: The Independent, P.O. Box 193, Wichita, KS. 67201-0193, or call in Wichita 263-8281, or toll free 1-800-536-8281. Visa, Master Card, American Express and Discover credit cards are accepted. Price is \$55 per book (free shipping). John H. Morrison III is publisher.

## New Oil Discoveries in Kansas

**AGV Corporation**, Attica (KS), has discovered Mississippian oil deposits over one and one-quarter miles west of the Salty Creek oil and gas field in **Barber** County. The Spicer Lake No. 1, spotted in approximately NE NW SE of section 2- T34s- R10W, was completed for an undisclosed potential. Operator used Landmark Drilling tools to bottom the well at a total depth of 5,170 ft. The new unnamed field lies one mile south and three-quarters mile east of the town of Hazelton, Kansas.

**Murfin Drilling Company, Inc.**, Wichita (KS), is producing an unknown amount of oil from the Lansing-Kansas City formation at their No. 1-12 Hagen, located in approximately SE NW SW in section 12- T12s- R20w, **Ellis** County. The 3,950 ft. deep wildcat well was completed on pump in April this year. Discovery site is located over one and one-half miles east of Lansing-Kansas City, Marmaton and Arbuckle oil wells in the Sweet William field, and is about five and one-half miles northwest of Hyacinth, Kansas.

**Wildcat Oil & Gas LLC**, Spivey (KS), has discovered new Marmaton oil reserves within the Landis field, which had previously produced oil from the Mississippian formation only. The No. 5 Liebl, drilled in approximately C S/2 N/2 NE SW in section 27- T34s- R11W, Barber County, is producing 50 barrels of oil, 200 barrels of water and 150 Mcf gas daily from Marmaton perforations at 4,547 to 4,569 ft. and Mississippian at 4,659 to 4,674 ft. total depth is 4,800 ft. Well site lies just over two miles northwest of Kiowa, Kansas.
