

## **Integrity Drilling Company, LLC Formed**

### *Contract Drilling Firm Serves Kansas and Colorado*

A new contract drilling company has been formed to serve operators working in the Western Kansas and Southeastern Colorado areas. **Integrity Drilling Company, LLC** introduces Rig No. 7 which is capable of drilling wells to depths reaching up to 7,000 ft. **Larry Taylor**, owner / operator with over 41 years of rig and production experience, is in the process of moving Rig No. 7 to scheduled drill sites located in Ellis County.

The completely refurbished mud rotary features an 87 ft. Lee C. Moore derrick mounted over a six foot substructure with a GB350 drawworks single drum powered by Detroit 600 hp engine. Rig is equipped with a K-225 light plant, D375 Emsco mud pump and 500 barrel capacity steel pits with desander, desilter and double shale shaker. **Don Morris** is Toolpusher.

Integrity Drilling Co., LLC office is located at 535 S. Fulton Avenue in Lenora, Kansas 67645. For more information or to contact Larry for rig schedule call 785-567-3168.
