

Mid-West Oilfield Service, LLC Expands Business

Frac Tanks, Winch Trucks Added to Services

Mid-West Oilfield Service, LLC has expanded its oilfield services with the addition of twenty-five frac tanks available for rental, two of which are flow-back style tanks, and the addition of two winch trucks. The expansion compliments Mid-West's other services, including salt water and fresh water hauling, tank cleaning, and complete roustabout and Hot Shot services. Mid-West operates vacuum and gear pumps, 80 and 90 barrel bobtails, and 130 and 150 barrel vacuum and transport trucks. They also own two bulk fresh water plants.

The company serves south central Kansas and north central Oklahoma.
