

Blackhawk Provides Tnemec Coatings

Blackhawk Sandblasting and Coating LLC was formed in April, 2014 by **Scott Reddig** and **David Thill**, both of Great Bend, Kansas. The company specializes in sandblasting, custom painting, protective coatings and corrosion control services. Services include frac tank coating, tank coating and repair, and tank lining and repair.

“Our company, Blackhawk, is the only firm in the Kansas offering the Tnemec product line. We are certified Tnemec 391 and Tnemec 120 coating installers.” said Reddig. The Tnemec product line consists of more than 100 Performance-Driven architectural and industrial coatings systems. From premium epoxy and polyurethane to specialized fluouopolymer technologies, the coatings have been formulated for extreme durability, enduring performance, and enhanced aesthetics for steel, concrete, masonry and drywall substrates.

Blackhawk is headquartered at 288 N. SW 2nd Road in Great Bend, Kansas. Mailing address is P. O. Box 837, Great Bend, KS 67530-0837. For more information or to schedule a job contact Scott Reddig, cell 620-793-0119, or 620-639-1144. Shop phone is 620-792-2244. Reddig also owns and operates Scott’s Welding Service, Inc. which offers complete shop and field welding services, truck and trailer rig-ups and repair, steam cleaning services and DOT and cargo Tank inspections.
